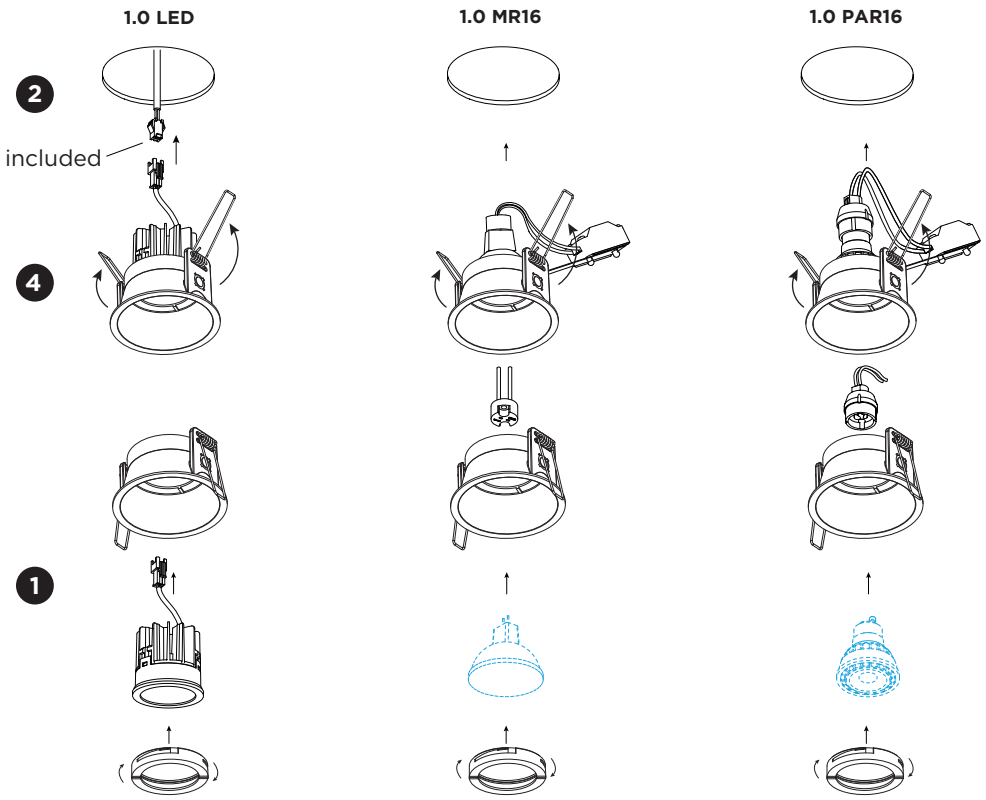
DEEPER FIX IP44

INSTALLATION INSTRUCTIONS | MAY 2024



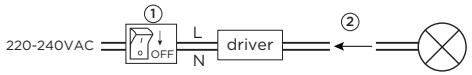
IP20

IP44

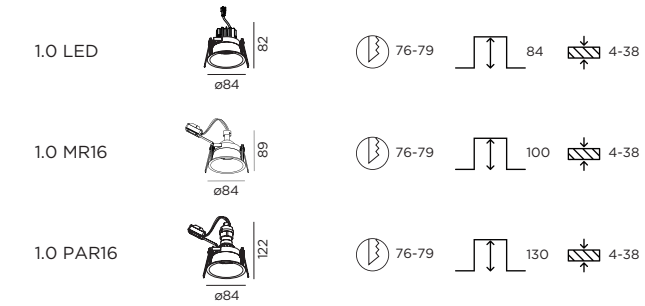
↑ IP44 RATING
Fixture is IP20 on the recessed part and IP44 on the visible/outer side

Driver must be powered off before connecting the cables.

Before connecting the luminaire/LED module to the driver please make sure the driver is not powered but disconnected from the mains. The driver can only be powered when the luminaire/LED module is already connected. Disregarding this instruction might damage or even destroy the luminaire/LED module.



DIMENSIONS

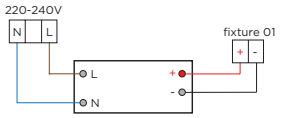


MOUNTING INSTRUCTION

1. Put the light source in the assembly set by locking the lamp ring in the housing by turning it a quarter clockwise.
2. Make a hole in the ceiling according to the prescribed dimensions.
3. **POWER CONNECTION**

LED Always use a driver according to the specifications of the LED module.

Single connection



Multiple connection

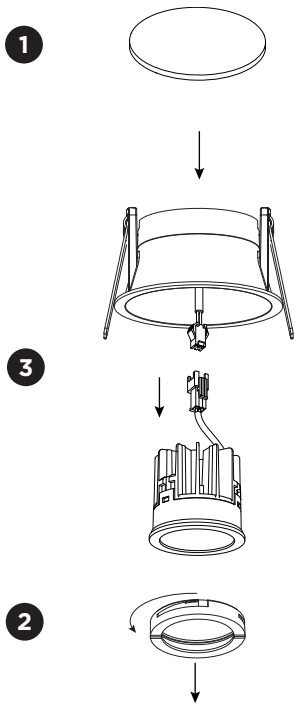
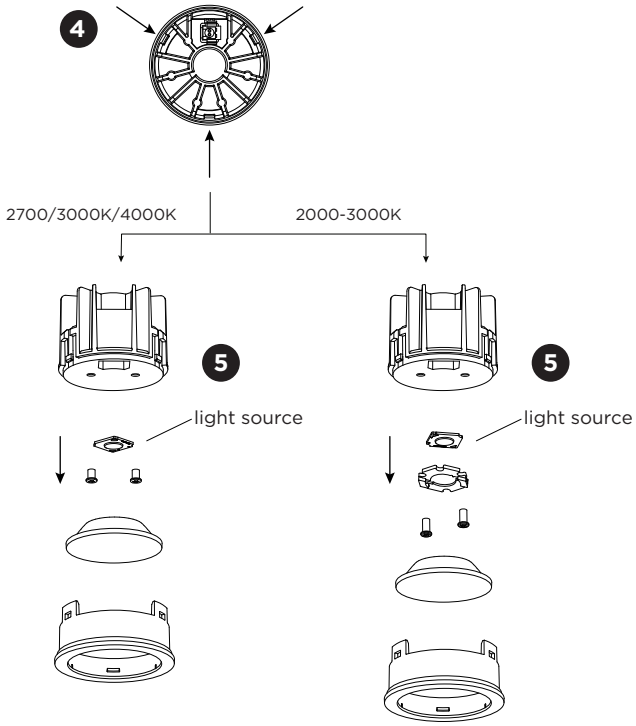
INSTALLATION INSTRUCTIONS | MAY 2024





DISMOUNTING AND RECYCLING INSTRUCTIONS
Light source

1. Remove the fixture from the ceiling.
2. Hold and turn the front ring counterclockwise to remove the LED module.
3. Unplug the LED module and remove it from the luminaire.
4. Unclip the front ring at the three points.
5. Take out the lens and unscrew the light source to remove it.

The light source is replaceable by Wever & Ducré or by a professional with explicit authorisation. For more information please contact your local Wever & Ducré customer service point.

A ↑ G D

This luminaire contains a light source with the energy class D.
