## DONNA 7

The Donna 7 lamp is reminiscent of a soft pleated textile, though in reality it's made from a fine, light aluminium. The form takes a cue from luxe, weightless fabrics used in high fashion and embraces the challenges of creating an illusion of softness, using a hard material instead of a woven textile. A beautiful and versatile piece with an expressive personality, Donna is equally at home in any environment. A sibling to the Donna pendants, this wall variation can be used independently to add character to a reading nook; or pleasing symmetry to a larger space or corridor. It comes in one size and four colourways.
