Tommy Hyldahl

Sculpt Stool Cushion - Leather

Product Description

Complement the Sculpt Stool with the Sculpt Cushion, adding comfort while preserving the stool's bold and sculptural character.

Covered in supple, warm cognac leather, the cushion features natural tonal variations that beautifully complement the textured brushstrokes of the fiber concrete base--creating a refined interplay between softness and strength.

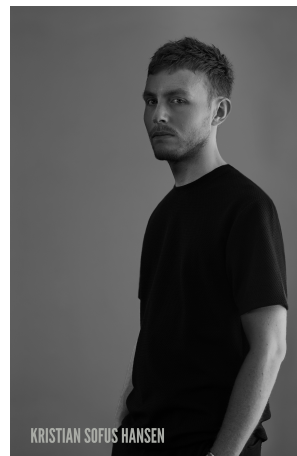

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

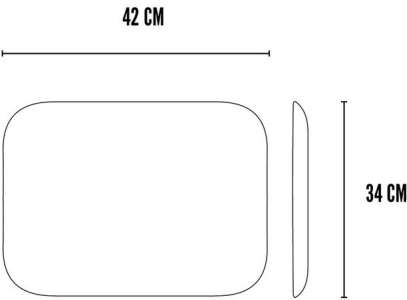

Sculpt Stool Cushion - Leather

Family Description Text

The Sculpt Collection is born from the Brutalist architecture of the 1950s, where concrete forms and monolithic geometry defined a new aesthetic language. Reimagined through a contemporary lens, the collection becomes a study in contrast and harmony.

One piece is draped in upholstery, its sharp geometry softened into comfort, an inviting balance of resilience and rest. Another, cast in fiber concrete and hand-painted, speaks with the raw authority of stone yet moves with surprising ease. It may stand alone as a sculptural statement or be paired with a separately available semi-aniline leather cushion, its supple surface adding both comfort and an elegant counterpoint to the rawness beneath.

Together, the Sculpt Collection embodies a dialogue between softness and solidity, warmth and rawness, the intimate and the monumental, two worlds converging in one sculptural expression.

Color Description

Cognac is a deep, warm brown enriched with subtle red and amber undertones. Evocative of aged brandy, this shade carries a sense of richness and timeless sophistication. Its natural warmth makes it versatile bold enough to add depth yet balanced enough to complement both light neutrals and darker tones.

Sculpt Stool Cushion - Leather

Maintenance Guide Description

Semi-aniline leather is finished with a light protective coating that enhances durability while maintaining a soft, natural feel. To preserve its beauty, dust or vacuum the surface regularly with a soft brush attachment. Wipe gently with a clean, slightly damp cloth to remove everyday dirt, then dry with a soft towel.

Avoid harsh chemicals, solvents, or abrasive cleaners, as these may damage the protective finish. For spills, blot immediately with a dry cloth never rub, as this can spread liquid and mark the surface. Over time, occasional conditioning with a leather care product designed for semi-aniline finishes will help maintain suppleness and prevent drying.

Keep furniture away from direct sunlight, heat sources, and excessive humidity to prevent fading, cracking, or stiffness. With simple, consistent care, semi-aniline leather will retain its elegance, comfort, and resilience for years to come.

Materials Description

Semi-aniline leather, also known as protected leather, is tanned with a light surface coating that enhances durability while preserving the authentic character of natural hide. This subtle finish provides a smooth, even appearance and adds resilience against fading, stains, and everyday wear. Balancing practicality with elegance, semi-aniline leather retains a soft, refined touch, making it an ideal choice for furniture that combines lasting beauty with daily comfort.
