# Sphere Vase Square, Mini - Ocher

## Product Description

Inspired by ancient Chinese vases, a palette of faded earth tones is characteristic of the Sphere Vase which was developed in close collaboration with highly skilled ceramists, ensuring the precise contrast between the smooth shapes and sharp edges.

With its compact 25 cm height and arrow-like silhouette, the Sphere Vase Square, Mini is ideal for tabletops, shelves, or windowsills. Perfect for displaying a few elegant stems, while its sculptural form allows it to stand beautifully on its own. Pair it with various Sphere vases to create a balanced composition of contrasting heights and shapes.

The Sphere collection has become synonymous with the visual language and the signature series of 101 Copenhagen. The series is a family of unique silhouettes and textures gathering in a decorative and sculptural manner. Elegantly sculpted, each vase is finished with an intricate ornate detailing.

As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included.

## Maintenance Guide Description

Our hand-painted ceramic pieces are crafted as decorative objects, designed to age gracefully when cared for with gentleness.

The outer surface of our pieces is hand-painted and should be treated with the same reverence dust lightly with a soft, dry cloth, allowing the painted character to remain untouched. Water, harsh cleaners, or abrasives should never meet this surface, as they can disturb its delicate finish.

Vases are sealed within and may hold water for fresh flowers. Clean their interiors gently with lukewarm water, then dry carefully, taking care that no moisture touches the painted exterior.

To preserve their vibrancy, keep each piece away from prolonged sunlight and sudden shifts in temperature. With such mindful care, every ceramic piece will hold its artistry, warmth, and timeless presence for years to come.

## Materials Description

Ceramic is one of the oldest and most enduring materials, celebrated for its strength, versatility, and timeless beauty. Shaped from natural clay and fired at high temperatures, it achieves a density and durability that make it ideal for both functional and decorative use. Its smooth surface provides the perfect canvas for craftsmanship.

Our ceramic is elevated through hand painting, where layers of pigment are carefully applied by skilled artisans. This process creates subtle variations in tone, texture, and detail, ensuring that no two pieces are ever alike. The result is a material that combines resilience with individuality practical enough for everyday use, yet refined enough to stand as an object of art.

Hand-painted ceramic embodies the harmony of nature, craft, and time: a surface that carries both the permanence of fired clay and the soulful presence of the human hand.
