Nicolaj Nøddesbo &
Tommy Hyldahl

Osaka Bowl, Mini - Light Grey

Product Description

Asian ceramic storage objects serve as an inspiration for the Osaka Bowl, a sculptural and cute bowl that will adorn any tabletop. The simplified half sphere is lifted from the ground by three walls as if to merge the perfect round and square shapes in one object. The brutalist and heavy appearance of the Osaka bowl is emphasized by the fact that it is cast in solid fiber concrete.

The refined textured surface is hand glazed and as it is a natural product, the colours may vary slightly.

Designer Description

Tommy Hyldahl and Nicolaj Nøddesbo intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Nicolaj, a Danish designer educated at the Aarhus School of Architecture, adds a sculptural precision to their shared vision. His work spans furniture, lighting, and objects, defined by innovation, tactility, and a serene minimalism. Each piece balances function and emotion, where form carries both presence and purpose.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Color Description

Hand-Painted Light Grey is a bright, airy grey enriched with subtle tonal variation from artisanal brushwork. The hand-painted finish gives the surface gentle depth and movement, softening the clarity of grey into something calm and tactile. Refined and versatile, this shade brings a quiet elegance that adapts seamlessly to both modern and classic settings.

Maintenance Guide Description

Our hand-painted fiber concrete vases combine strength with artistry, designed for indoor use and crafted to be fully waterproof inside.

To care for the finish, dust the exterior gently with a soft, dry cloth. If deeper cleaning is needed, wipe carefully with a damp cloth and mild, pH-neutral soap, then dry immediately. Avoid abrasive pads, harsh chemicals, acidic or alkaline cleaners, and sharp objects, as these may damage the hand-painted surface.

The vases are waterproof within and can safely hold water for fresh flowers. After rinsing, dry gently and take care not to let excess water sit on the painted exterior, helping to preserve its finish over time.

With mindful care, each vase will retain its depth, warmth, and unique hand-painted character, becoming a lasting presence in your home.

Materials Description

Hand-painted fiber concrete combines strength with artistry, transforming an industrial material into a refined surface for pieces that enrich the home. Reinforced with fibers for durability, it offers resilience against everyday use while remaining lightweight and versatile. Each piece is painted by hand, creating subtle variations in tone and texture that make every surface unique.

The result is a finish that balances raw honesty with crafted detail, bringing depth, character, and individuality to contemporary interiors.
