Formakami JH3 – JH5
Jaime Hayon
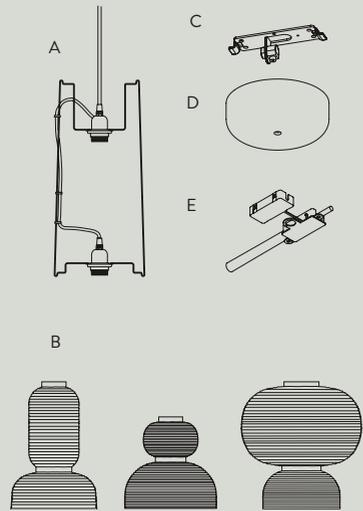

2015

Please read these instructions carefully and retain them for future reference to ensure that the product is used correctly. For your own safety, please study each step of this instruction manual first. &Tradition is not responsible for any faults or damages caused by not following these instructions correctly. Do not modify this product in any way.

Contents

- A Frame
- B Lamp shade (1 x shade included)
- C Ceiling bracket
- D Plastic canopy
- E Connection box

Tools needed

- Cable cutter
- Cable stripper
- Small flat headed screwdriver

Safety precautions

- Dispose plastic bag from packaging and do not allow children to play with it.
- Keep product well out of children's reach.
- The lamp is only intended for interior use.
- Do not attempt installation of product if you are not competent to do so yourself.
- Consult a professionally qualified electrician if in any doubt.
- Disconnect the electricity supply at the fuse box, before commencing work.

Cleaning instructions

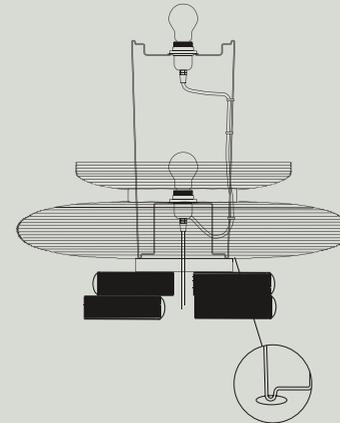

- Wipe surface of the lamp shade with a soft duster, or very gentle with a soft dry cloth.
- Do not use any abrasive cleaning tools such as steel wool, scouring sponges or stiff brushes.
- Never use liquids to clean the shade.

For indoor use only
Maximum 60W | E27 bulbs not included

Step 1

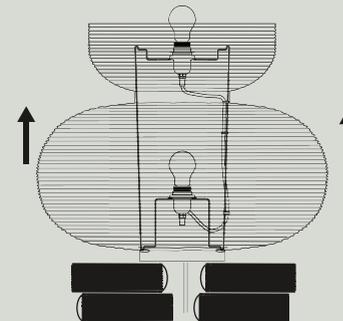

Insert the light bulbs.

Step 2

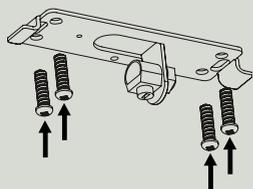

Place the shade up-side-down on a raised surface allowing for a gap to pass the cable through.

Then place the top of the frame through the bottom of the shade and into the metal hoops connected to the top of the pendant.

Step 3

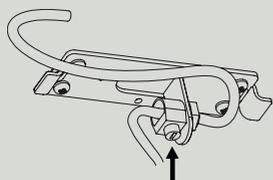

Carefully pull the shade up over the rest of the frame and hook it into the secondary set of hoops.

Step 4

Ensure power supply is turned OFF and remove any existing lamp fittings. Locate the supply cable and ensure it is ready to be fitted to the connector block.

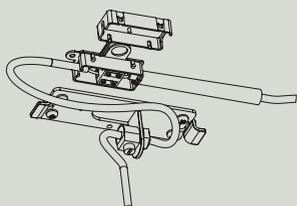

Mount the metal bracket securely in the ceiling with screws and wall plugs, appropriate for the ceiling of installation.

Step 5

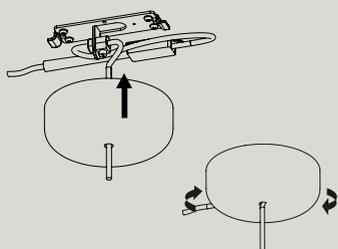

Slide the cable through the strain relief on the metal bracket and pull until you have found the proper height for the lamp.

Tighten the screw to secure the lamp in the right height.

Step 6

Use the terminal block inside the connection box to assemble the wires from the pendant with the wires from the power supply. Close the connection box and place it inside the canopy.

Step 7

Place the canopy cup onto the metal bracket and twist to secure it in the right position.

Once the pendant is in place, carefully stretch and adjust the bottom shade to make sure the paper is fully folded out.
