

Anelli series

Designed by Meike Harde, Germany

A series of voluminous yet airy pendants with a natural and effortless feel. Each pendant is composed of rings of oak or birch veneer, gently suspended by fine string that is knotted through each ring. The LED top emits a softly diffused light through the screen. Available in two sizes that can be grouped into atmospheric arrangements with a transparent quality. Designed by Meike Harde.

Meet the designer

My designs are characterized through fine structures, certain transparencies and subtle details adapted in pure shapes. My designs aim towards an aesthetic synergy of material and form. I believe that a decorative element should walk hand in hand with a useful purpose. For me, function and aesthetic are a unified whole.
