Cobra Vase Fat, Medio - Bubble White

Product Description

A tribute to the Cobra Arts Movement of the 1960s, the Cobra Vase Fat, Medio is a quirky vase that brings joy and playful character to any interior.

With its chunky dual legs and wide opening, it embodies whimsical, soft, and organic shapes, unmistakably reminiscent of human silhouettes and curves. True to the Cobra artists' way of working, the design takes its starting point in naive hand sketches, resulting in a bold, bodily-inspired form.

The Cobra Vase Fat, Medio works beautifully on tables, shelves, or consoles. Its wide opening accommodates a bold few stems or a sculptural arrangement, while its playful form makes it a statement piece on its own. Combine with other Cobra vases for a lively, human-inspired display.

As it is a hand-glazed natural product with a bubbly texture, subtle variations in colour and texture may occur. While not 100% waterproof, a bag for fresh flowers is included.

A tribute to the playful spirit of the Cobra Arts Movement of the 1960s, the Cobra Collection celebrates joy, whimsy and artistic freedom through forms that feel alive. Drawing on the movement's embrace of spontaneity, each piece begins as a naive hand sketch, simple unguarded lines that grow into sculptural silhouettes reminiscent of the human body.

Soft, organic curves echo the rhythm of life itself, inviting a sense of imperfection, creativity and vitality into the everyday. Whether casting light, holding flowers or carrying a flame, the objects transcend their function to become poetic gestures, artful presences that bring warmth, humour and character into the home.

Handcrafted with care, every piece is unique, its subtle variations a reminder of the beauty found in individuality. The Cobra Collection is not just a series of objects, but a celebration of freedom, imagination and the joy of living with art.

Color Description

Bubble White is a crisp, radiant white with luminous brightness. Its surface reveals a delicate ceramic sawdust bubble effect, adding refined texture and depth beneath the clean white tone. Fresh and uplifting, it conveys the purity of light while bringing openness and distinction to any space.

Maintenance Guide Description

Our hand-painted ceramic pieces are crafted as decorative objects, designed to age gracefully when cared for with gentleness.

The outer surface of our pieces is hand-painted and should be treated with the same reverence dust lightly with a soft, dry cloth, allowing the painted character to remain untouched. Water, harsh cleaners, or abrasives should never meet this surface, as they can disturb its delicate finish.

Vases are sealed within and may hold water for fresh flowers. Clean their interiors gently with lukewarm water, then dry carefully, taking care that no moisture touches the painted exterior.

To preserve their vibrancy, keep each piece away from prolonged sunlight and sudden shifts in temperature. With such mindful care, every ceramic piece will hold its artistry, warmth, and timeless presence for years to come.

Materials Description

Ceramic is one of the oldest and most enduring materials, celebrated for its strength, versatility, and timeless beauty. Shaped from natural clay and fired at high temperatures, it achieves a density and durability that make it ideal for both functional and decorative use. Its smooth surface provides the perfect canvas for craftsmanship.

Our ceramic is elevated through hand painting, where layers of pigment are carefully applied by skilled artisans. This process creates subtle variations in tone, texture, and detail, ensuring that no two pieces are ever alike. The result is a material that combines resilience with individuality practical enough for everyday use, yet refined enough to stand as an object of art.

Hand-painted ceramic embodies the harmony of nature, craft, and time: a surface that carries both the permanence of fired clay and the soulful presence of the human hand.
