Offset Vase, Big - Coffee

Designed by

Nicolaj Nøddesbo &
Tommy Hyldahl

Offset Vase, Big - Coffee

Product Description

Like a design process frozen in time, the Offset vase is a distortion of the familiar rounded shape being cut. It challenges the idea of a vase and drastically changes appearance depending on the angles it is viewed from: From an imitation of a traditional vase to a sculptural object.

The Big Offset Vase - Coffee is ideal as a statement piece on a dining table, console, or sideboard. Its sculptural form allows it to stand alone as a decorative object or hold flowers when used with the included bag. It pairs beautifully with smaller Offset vases to create a layered, harmonious display.

The Offset Vase is made from fiber concrete. As it is hand glazed to create a textured, unique surface and a natural product, the colours may vary slightly and as it is not 100% waterproof, a bag for fresh flowers is included.

Designer Description

Tommy Hyldahl and Nicolaj Nøddesbo intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Nicolaj, a Danish designer educated at the Aarhus School of Architecture, adds a sculptural precision to their shared vision. His work spans furniture, lighting, and objects, defined by innovation, tactility, and a serene minimalism. Each piece balances function and emotion, where form carries both presence and purpose.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Offset Vase, Big - Coffee

Main

Item Height in cm	48.00	Space Suitability	Indoor
Item width in cm	40.00	Waterproof	No
Item length in cm	60.00	Gift Box	No
		Frostproof	

Family Description Text

The Offset Vase begins as something familiar: the soft curve of a traditional vessel. Then, like an interruption in the design process, its shape is shifted, cut, and displaced. What remains is not only an object, but the trace of an event. A form in tension, as if caught mid-transformation.

It belongs to Brutalism: raw, unapologetic, architectural. Its surfaces are deliberate, its weight undeniable. From one side it nods to the memory of a classical vase; from another it becomes a fragment of a structure, almost sculptural, almost ruin.

And then the light moves. Shadows sharpen, edges soften, surfaces glow. Walking around it feels like orbiting a planet, witnessing an eclipse in slow motion. With each step the vase reveals something different, never fixed, always becoming.

Color Description

Hand-painted in a deep, warm dark brown, this shade evokes the richness of earth and roasted beans. Its grounded elegance lends both warmth and depth, while brush stroke variations bring gentle shifts in tone and texture, making each piece entirely unique.

Maintenance Guide Description

Our hand-painted fiber concrete vases combine strength with artistry, designed for indoor use and crafted to be fully waterproof inside.

To care for the finish, dust the exterior gently with a soft, dry cloth. If deeper cleaning is needed, wipe carefully with a damp cloth and mild, pH-neutral soap, then dry immediately. Avoid abrasive pads, harsh chemicals, acidic or alkaline cleaners, and sharp objects, as these may damage the hand-painted surface.

The vases are waterproof within and can safely hold water for fresh flowers. After rinsing, dry gently and take care not to let excess water sit on the painted exterior, helping to preserve its finish over time.

With mindful care, each vase will retain its depth, warmth, and unique hand-painted character, becoming a lasting presence in your home.

Materials Description

Hand-painted fiber concrete combines strength with artistry, transforming an industrial material into a refined surface for pieces that enrich the home. Reinforced with fibers for durability, it offers resilience against everyday use while remaining lightweight and versatile. Each piece is painted by hand, creating subtle variations in tone and texture that make every surface unique.

The result is a finish that balances raw honesty with crafted detail, bringing depth, character, and individuality to contemporary interiors.
