Guggenheim Vase, Petit - Bone White

Product Description

The Guggenheim vase is characterized by a harmonious fusion of sharp, archetypal geometric lines and slender silhouette.

The design plays with the viewer's perception, crafting a mesmerizing optical illusion that captures the essence of artistic ingenuity. The three-dimensional vase is intriguing from every angle, inviting curiosity and admiration. Handcrafted by skilled artisans allows for a unique, textured surface that brilliantly captures and refracts light, which also explains slight variations in colour. This exquisite detail not only enhances the visual appeal of the vases but also transforms them into artistic objects that enrich the ambiance of any space. With their innovative design and craftsmanship, the Guggenheim vases effortlessly blend form and function to create a stunning decorative statement.

The Guggenheim vase is perfect as standalone sculptural pieces on a console, shelf, or dining table, where the geometric forms and optical illusions can be fully appreciated with or without decorative branches or dried flowers. For a dynamic display, group multiple sizes together to create a layered and harmonious arrangement that highlights their unique textures and reflective surfaces.

As it is a hand glazed natural product, the colours may vary slightly and while it is not 100% waterproof, a bag for fresh flowers is included.

Maintenance Guide Description

Our hand-painted ceramic pieces are crafted as decorative objects, designed to age gracefully when cared for with gentleness.

The outer surface of our pieces is hand-painted and should be treated with the same reverence dust lightly with a soft, dry cloth, allowing the painted character to remain untouched. Water, harsh cleaners, or abrasives should never meet this surface, as they can disturb its delicate finish.

Vases are sealed within and may hold water for fresh flowers. Clean their interiors gently with lukewarm water, then dry carefully, taking care that no moisture touches the painted exterior.

To preserve their vibrancy, keep each piece away from prolonged sunlight and sudden shifts in temperature. With such mindful care, every ceramic piece will hold its artistry, warmth, and timeless presence for years to come.

Materials Description

Ceramic is one of the oldest and most enduring materials, celebrated for its strength, versatility, and timeless beauty. Shaped from natural clay and fired at high temperatures, it achieves a density and durability that make it ideal for both functional and decorative use. Its smooth surface provides the perfect canvas for craftsmanship.

Our ceramic is elevated through hand painting, where layers of pigment are carefully applied by skilled artisans. This process creates subtle variations in tone, texture, and detail, ensuring that no two pieces are ever alike. The result is a material that combines resilience with individuality practical enough for everyday use, yet refined enough to stand as an object of art.

Hand-painted ceramic embodies the harmony of nature, craft, and time: a surface that carries both the permanence of fired clay and the soulful presence of the human hand.
