Arc Bench Cushion, Linen

Designed by

Kristian Sofus Hansen &
Tommy Hyldahl

Arc Bench Cushion, Linen

Product Description

The Arc Bench Cushion is intended to increase the comfort of the Arc Bench.

The rectangular cushion is made of foam with linen fabric in the colour chalk, creating a beautiful contrast between the smooth concrete surface and the tactile cushion.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Arc Bench Cushion, Linen

Family Description Text

The Arc Collection is an ode to Art Deco, where grand architectural details are distilled into minimalist forms. Sculptural steps and arches create depth and shadow, evoking classical structures with a contemporary edge.

At its core, the collection explores material contrasts. Solid oak, hand painted fiber concrete in nuanced tones, solid fiber concrete, and silver travertine meet in bold dialogue, united by a single sculptural language. Raw textures and elemental forms define each piece, giving the collection strength and clarity.

The Arc Dining Table pairs the warmth of solid oak with the weight of hand painted fiber concrete, creating a centerpiece that is both monumental and refined. The Arc Console is available in two expressions. One combines a base of hand painted fiber concrete with a silver travertine top, merging permanence with delicacy. The other is crafted entirely in solid fiber concrete, offering a more monolithic architectural presence. The Arc Bench, cast fully in hand painted fiber concrete, stands as the purest expression of the series, sculptural and strong. It can be paired with an optional linen cushion to introduce a tactile counterpoint to its raw surface.

Arc is a study in raw beauty. Diverse materials converge without breaking the design language, resulting in a collection that transforms architectural influence into timeless furniture for modern living.

Color Description

White Chalk is a soft, natural white with a gentle warmth that highlights the texture of linen. Its chalky matte quality gives it an airy brightness while the subtle warmth keeps it from feeling stark, creating a refined and inviting elegance. Timeless and versatile, it brings a fresh yet natural clarity that complements both modern and classic settings.

Maintenance Guide Description

Linen upholstery is a natural, durable fabric that softens beautifully with time. To maintain its appearance, vacuum the surface regularly with a soft brush attachment to remove dust and prevent particles from embedding in the weave. In case of spills, blot gently with a clean, dry cloth never rub, as this may spread the stain or damage the fibers. For stubborn marks, use a mild fabric-specific upholstery cleaner and always test on an inconspicuous area first. Professional upholstery cleaning is recommended for a deeper refresh when needed. Protect the fabric from direct sunlight to prevent fading and avoid prolonged exposure to moisture. With thoughtful care, linen upholstery will preserve its natural elegance, warmth, and comfort for years to come.

Materials Description

100% Linen is a natural fiber celebrated for its exceptional durability and timeless beauty. Strong and resistant to wear, it is designed to endure while retaining its elegance. Soft to the touch with a subtle, tactile texture, linen adds depth and visual interest to any interior. Its organic character and natural warmth bring a sense of comfort and authenticity, making it a fabric that grows more beautiful with use and time.
