Tairu Table - Striped

Designed by

Kristian Sofus Hansen &
Tommy Hyldahl

Tairu Table - Striped

Product Description

The Tairu Table - Striped is a refined square side table that seamlessly combines natural beauty with modern design. Its fiber concrete frame provides a strong, sculptural base, while three types of exquisite marble--Peach Wind, Calacatta Violet, and Valencia Yellow--are carefully inset into the tabletop, creating a striking visual contrast. The side table adds sophistication and character to any living room, bedroom, or lounge area.

Named after the Japanese word for "tiles," Tairu is a contemporary reinterpretation of mid-century tile tables, celebrating timeless craftsmanship with a minimalist aesthetic. Each table is truly one-of-a-kind, with natural variations in colour and veining making every piece unique.

For indoor use.

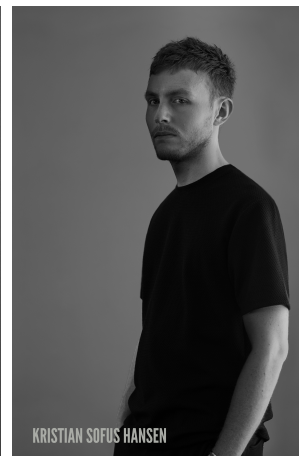

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Tairu Table - Striped

Family Description Text

Tairu, where stone becomes poetry. Named after the Japanese word for "tiles," Tairu draws its spirit from simplicity and form, a modern reflection of the mid-century muse.

Each table is a meeting of elements, where cool fiber concrete embraces the warmth of marble and geometry is softened by nature's hand. The Calacatta version gleams with quiet purity, while the combination of Peach Wind, Calacatta Violet, and Valencia Yellow transforms color into emotion, creating a symphony of stone.

No two pieces are ever the same. Within every tile lies the quiet pulse of the earth, a story written in veins and hues, waiting to be seen, to be touched, and to belong.

Color Description

This union brings together the lyrical beauty of marble and the soulful depth of hand-painted colour. In the marble, three voices intertwine the blush of Peach Wind, the luminous white veined with violet of Calacatta, and the golden radiance of Valencia Yellow striped like a rhythm of light. Against this, Hand-Painted Coffee adds the grounding warmth of earth, its rich brown surface layered with quiet movement. Together, they form a composition of brilliance and shadow, elegance and substance timeless, expressive, and alive with contrast.

Maintenance Guide Description

This piece combines the natural elegance of Calacatta Violetta marble with the sculptural strength of fiber concrete. Both materials are crafted to endure, yet each requires mindful care to preserve its beauty.

For Calacatta Violetta marble, dust regularly with a soft, dry cloth. Clean with a damp cloth and mild, pH-neutral soap, then dry thoroughly to avoid streaks or water spots. Because marble is porous, wipe spills immediately to prevent staining from liquids such as wine, coffee, or oils. Avoid acidic or abrasive cleaners, as these can etch or dull the polished surface. For lasting protection, professional sealing is recommended.

For fiber concrete, wipe with a soft, dry or slightly damp cloth. Use mild, pH-neutral soap when necessary, and dry immediately. Avoid abrasive pads, harsh chemicals, or acidic/alkaline cleaners, which may damage the finish. Protect surfaces with coasters, mats, or felt pads to prevent scratches, stains, and heat marks.

With consistent, thoughtful care, the refined luxury of marble and the resilience of fiber concrete will retain their contrast and harmony, ensuring the furniture ages gracefully while maintaining its sculptural presence.

Materials Description

This material pairing unites the natural drama of Calacatta Violetta marble with the sculptural strength of fiber concrete. Calacatta Violetta, prized for its creamy ground streaked with violet veining, carries the elegance of centuries of geological formation. Each slab is unique, with flowing patterns that bring depth, movement, and individuality.

In contrast, fiber concrete offers stability and resilience. Reinforced with fibers and cast in molds, it allows for bold sculptural forms while remaining lightweight and durable. When combined, the refined luxury of marble and the grounded strength of concrete create a dialogue between organic beauty and architectural precision.

The result is a material composition that is both expressive and enduring timeless stone anchored by crafted concrete designed to enrich furniture with contrast, balance, and sculptural presence.
