Color Description

Hand-painted in a bold, charcoal-grey, this colour embodies strength and stillness. Its profound depth offers quiet sophistication, while brush stroke variations give the surface movement and individuality.

Maintenance Guide Description

Our hand-painted fiber concrete plant pots are created to bring strength and character to both indoor and outdoor spaces. Resistant to rain, they stand gracefully through the seasons, though they are not frost-proof. In winter, we recommend bringing them indoors or protecting them with a waterproof cover to safeguard their surface from damage.

To care for the finish, dust gently with a soft, dry cloth. When deeper cleaning is needed, use a damp cloth with mild, pH-neutral soap, then dry carefully. Avoid abrasive pads, harsh chemicals, or acidic cleaners, as well as sharp objects, which may mark or disturb the painted surface.

Each pot is paired with a matching saucer, making them as practical as they are refined. With attentive care and thoughtful protection, your plant pots will hold their depth, warmth, and unique hand-painted presence for years to come.

Materials Description

Hand-painted fiber concrete combines strength with artistry, transforming an industrial material into a refined surface for pieces that enrich the home. Reinforced with fibers for durability, it offers resilience against everyday use while remaining lightweight and versatile. Each piece is painted by hand, creating subtle variations in tone and texture that make every surface unique.

The result is a finish that balances raw honesty with crafted detail, bringing depth, character, and individuality to contemporary interiors.
