Tribu Stool - Coffee

Designed by

Kristian Sofus Hansen &
Tommy Hyldahl

Tribu Stool - Coffee

Product Description

Inspired by old tribal sculptures, the Tribu stool is made of a fiber concrete base with a soft upholstered cushion on top. Characterized by a surface of architectural concrete lamellas, Tribu emphasizes the fine balance between sharp architectural lines and a somewhat softer curve of the upholster cushion, meticulously upholstered for added comfort and made in an elegant off-white linen, that enhances the aesthetic appeal.

Practical as extra seating or a decorative accent, the Tribu Stool adds sculptural character to living rooms, bedrooms, or hallways while offering a comfortable upholstered seat.

For indoor use.

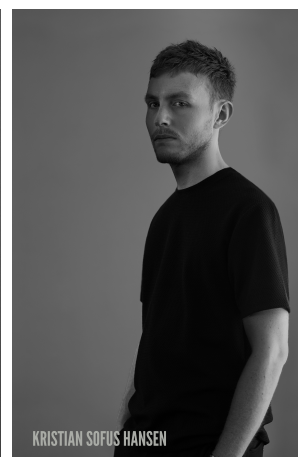

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Family Description Text

Inspired by the timeless artistry of tribal sculptures, the Tribu Collection blends raw architectural expression with refined comfort. Each piece is built upon a sculptural fiber concrete base, its surface defined by architectural lamellas that emphasize rhythm and structure. This strong foundation is balanced by the inviting softness of a meticulously upholstered cushion, creating a dialogue between sharp lines and gentle curves.

For uncompromised comfort, every product in the series is complemented by a thoughtfully tailored cushion, designed to bring elegance and ease into everyday living.

The Tribu Collection is more than seating. It is an architectural statement, crafted for those who seek a harmonious blend of strength, form, and comfort.

Color Description

Hand-painted in a deep, warm dark brown, this shade evokes the richness of earth and roasted beans. Its grounded elegance lends both warmth and depth, while brush stroke variations bring gentle shifts in tone and texture, making each piece entirely unique.

Maintenance Guide Description

This piece combines two natural, artisanal materials that age gracefully with time: hand-painted fiber concrete and linen. Each requires mindful care to preserve its beauty and character.

For hand-painted fiber concrete surfaces, dust regularly with a soft cloth. Clean gently with a damp cloth and mild, pH-neutral soap, then dry thoroughly. Avoid abrasive pads, solvents, or acidic/alkaline cleaners, as they may damage the hand-painted finish. Always use coasters, mats, or felt pads to protect against scratches, stains, heat, and water marks. Wipe spills immediately to prevent absorption, and keep surfaces away from prolonged exposure to moisture, direct sunlight, or temperature extremes.

For linen upholstery, vacuum gently with a soft brush attachment to remove dust and prevent particles from embedding in the fibers. Blot spills immediately with a clean, dry cloth never rub, as this can spread stains. For light soiling, use a mild upholstery cleaner suitable for natural fabrics, testing first on a hidden area. Professional upholstery cleaning is recommended for deeper care. Protect linen from direct sunlight to avoid fading and from excess humidity to maintain its natural texture.

With thoughtful handling, the combination of hand-painted fiber concrete and linen will preserve its elegance and authenticity, aging with quiet character over time.

Materials Description

This combination unites the crafted strength of hand-painted fiber concrete with the natural softness of linen. The concrete, reinforced with fibers and finished by hand, reveals subtle variations in tone and texture, ensuring that no two pieces are ever the same. Its artisanal surface brings depth and individuality, while the linen adds warmth, comfort, and a tactile organic character. Together, they create a dialogue between raw strength and refined softness, offering furniture that is both sculptural and inviting--crafted to age gracefully and enrich interiors with timeless elegance.
