Cobra Vase Double, Mini - Bone White

Product Description

A tribute to the Cobra Arts Movement of the 1960s, the Cobra Vase Double, Mini is a quirky vase that brings joy and sculptural character to any interior.

Think whimsical, soft, and organic shapes, unmistakably reminiscent of human silhouettes and curves. True to the Cobra artists' way of working, the design takes its starting point in naive hand sketches, resulting in a playful bodily-inspired form.

The Cobra Vase Double, Mini works beautifully on tables, shelves, or consoles. Its dual openings allow for flowers or branches, while its sculptural form stands out even when empty. Combine with other Cobra vases for a lively, human-inspired display.

As it is a hand glazed natural product, the colours may vary slightly. As it is not fully waterproof, a protective bag for fresh flowers is included, allowing you to enjoy both its sculptural form and functional beauty.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

A tribute to the playful spirit of the Cobra Arts Movement of the 1960s, the Cobra Collection celebrates joy, whimsy and artistic freedom through forms that feel alive. Drawing on the movement's embrace of spontaneity, each piece begins as a naive hand sketch, simple unguarded lines that grow into sculptural silhouettes reminiscent of the human body.

Soft, organic curves echo the rhythm of life itself, inviting a sense of imperfection, creativity and vitality into the everyday. Whether casting light, holding flowers or carrying a flame, the objects transcend their function to become poetic gestures, artful presences that bring warmth, humour and character into the home.

Handcrafted with care, every piece is unique, its subtle variations a reminder of the beauty found in individuality. The Cobra Collection is not just a series of objects, but a celebration of freedom, imagination and the joy of living with art.

Materials Description

Ceramic is one of the oldest and most enduring materials, celebrated for its strength, versatility, and timeless beauty. Shaped from natural clay and fired at high temperatures, it achieves a density and durability that make it ideal for both functional and decorative use. Its smooth surface provides the perfect canvas for craftsmanship.

Our ceramic is elevated through hand painting, where layers of pigment are carefully applied by skilled artisans. This process creates subtle variations in tone, texture, and detail, ensuring that no two pieces are ever alike. The result is a material that combines resilience with individuality practical enough for everyday use, yet refined enough to stand as an object of art.

Hand-painted ceramic embodies the harmony of nature, craft, and time: a surface that carries both the permanence of fired clay and the soulful presence of the human hand.
