Color Description

Warm Ash is a refined grey-beige neutral with a gentle warmth, created by weaving soft taupe and off-white threads together. The interplay of these tones forms a subtle pattern that adds natural depth and brightness, blending into a balanced warm ash appearance. Calm and timeless, it recalls the softness of sunlit ash wood or pale limestone, making it a versatile choice for modern and classic settings alike.

Maintenance Guide Description

Sunproof upholstery is crafted for long-lasting comfort and resilience in outdoor environments. To preserve its beauty, vacuum or brush the fabric regularly to remove dust, pollen, and loose dirt. Spills should be blotted immediately with a clean, dry cloth; for most marks, rinsing with fresh water is enough.

For deeper cleaning, wash with a mild soap solution and lukewarm water using a soft sponge or cloth, then rinse thoroughly to prevent residue. Always allow the fabric to air-dry naturally avoid tumble drying, heat, or harsh chemicals such as bleach, which can damage the fibers and protective finish.

When furniture is not in use for extended periods, cover or store it in a dry, ventilated area to extend its life. With simple care, Sunproof upholstery will retain its vibrant color, soft texture, and high-performance qualities for many seasons outdoors.
