Maintenance Guide Description

Our lights are crafted with refined finishes that balance luminous clarity with timeless softness. To preserve their beauty and ensure lasting quality, regular and gentle care is essential.

The Chrome (Cr III) finish should be cleaned using a soft, dry microfiber cloth to remove dust and fingerprints. For deeper cleaning, use a slightly damp cloth with mild, pH-neutral soap, followed by a gentle dry wipe. Avoid abrasive pads, harsh chemicals, or ammonia-based cleaners, as these can scratch or dull the mirrored surface.

The Matt Porcelain (opal glass) requires equally delicate care. Its velvety matte surface can be dusted with a microfiber cloth or wiped with warm water and mild soap. Always dry immediately with a clean, lint-free cloth to prevent streaks or water marks. Do not use abrasive sponges, acidic cleaners, or strong detergents, as they can damage the finish. Although durable, the porcelain should be handled carefully to avoid chipping or scratching.

For both materials, always switch off and unplug the lamp before cleaning, and avoid placing it in environments with excessive humidity or direct contact with water. With simple, regular care, the Chrome (Cr III) will maintain its mirrored brilliance, while the Matt Porcelain will preserve its soft, radiant glow ensuring the lamp remains refined and timeless for years to come.

Materials Description

The chrome finish combines technical precision with modernist clarity. Using Decorative Trivalent Chrome Plating (Cr III) on aluminium, the surface is polished to a mirrored brilliance that reflects its surroundings with sharp precision. Sleek and striking, it serves as a counterbalance to textured finishes, capturing light and form like liquid metal while embodying the clean lines of contemporary design.
