Tommy Hyldahl

Stick Chandelier - Chrome

Product Description

Drawing inspiration from minimalist art, the Stick Chandelier in a sleek mirror chrome, seamlessly melds light and sculpture, creating a striking graphic lighting design. This collection showcases a radiant white acrylic tube, which houses a long-lasting LED light source, boasting 25,000 hours of illumination at a warm 2400 Kelvin. Accented with plated metal fittings at both ends and mounted on streamlined, geometric metal fixtures, the collection evokes a distinctly graphic ambiance reminiscent of 80s visual language - linear, structured, and graphic

Shifting away from the starkness typically associated with neon, these innovative lamps exude a warmer, more inviting glow, setting the ambiance for a cozy and comforting atmosphere.

The chandelier features eight adjustable arms, allowing each light element to be repositioned and angled as desired. This flexibility gives users the freedom to create dynamic, personalized compositions - whether uniform and symmetrical or expressive and asymmetrical.

Whether suspended above a dining area or anchoring a spacious hotel lobby, it adds sculptural presence, warm light, and timeless design clarity to both residential and larger architectural spaces.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Family Description Text

The Stick Collection draws inspiration from minimalist art, where light becomes sculpture and geometry transforms into poetry. Defined by radiant white acrylic tubes that house a long-lasting LED glow, each piece captures the essence of line, balance, and form. Accented with plated metal fittings and mounted on streamlined geometric fixtures, the collection evokes the bold graphic language of the 1980s, linear, structured, and strikingly modern.

Yet, unlike the starkness of traditional neon, the Stick Collection radiates warmth. At 2400 Kelvin, its light is soft and inviting, creating an atmosphere that feels both contemporary and comforting. Each piece becomes more than illumination; it is an instrument of mood, shaping space with clarity and grace.

The chandelier, with its eight adjustable arms, offers endless possibilities of expression, whether arranged in disciplined symmetry or set free in dynamic asymmetry. The table lamp brings sculptural presence to intimate spaces, while the wall lamp extends its luminous lines across the vertical plane, adding depth and rhythm to interiors.

Moving effortlessly between residential and architectural settings, the Stick Collection is at home in dining rooms and hotel lobbies, on bedside tables and gallery walls. It redefines light as both a graphic statement and an enduring work of art.

Color Description

Chrome is a sleek, mirror-like silver with liquid clarity, polished to brilliance. It reflects its surroundings with sharp precision, evoking the clarity of liquid metal. Luminous and sophisticated, this finish embodies modernist purity and serves as both a striking highlight and a refined counterbalance to textured tones.

Maintenance Guide Description

Our lights finished in Chrome (Cr III) with acrylic tubes are designed to combine mirrored brilliance with a soft, luminous presence. To preserve their clarity and radiance, regular and gentle care is essential.

The Chrome (Cr III) surface should be wiped with a soft, dry microfiber cloth to remove dust and fingerprints. For deeper cleaning, use a slightly damp cloth with mild, pH-neutral soap, then dry immediately with a clean, lint-free cloth. Avoid abrasive pads, ammonia-based cleaners, acidic solutions, or strong detergents, as these can scratch the chrome or dull its mirrored finish.

The acrylic tubes require equally delicate care. Dust regularly with a soft microfiber cloth, and when necessary, clean with warm water and a small amount of mild soap. Always dry with a lint-free cloth to maintain their luminous clarity. Do not use alcohol, solvents, or abrasive cleaners, as they may cause surface damage or clouding.

Before any cleaning, always switch off and unplug the light. Avoid exposing both finishes to high humidity or direct water contact. With simple, consistent care, the Chrome (Cr III) will retain its liquid-metal brilliance, while the acrylic tubes will continue to glow with soft, inviting light ensuring the lamp remains refined and timeless for years to come.

Materials Description

The chrome finish combines technical precision with modernist clarity. Using Decorative Trivalent Chrome Plating (Cr III) on aluminium, the surface is polished to a mirrored brilliance that reflects its surroundings with sharp precision. Sleek and striking, it serves as a counterbalance to textured finishes, capturing light and form like liquid metal while embodying the clean lines of contemporary design.
