Kristian Sofus Hansen &
Tommy Hyldahl

Ghost Ceiling Lamp - Chrome

Product Description

A study in light and form, the Ghost Ceiling Lamp - Chrome transforms illumination into sculpture. Inspired by minimalist art, each lamp traces luminous lines through space like a hand-drawn sketch made three-dimensional, shifting with every perspective and unfolding into new patterns as you move around it.

At the core of the design is a single radiant acrylic tube, anchored in a polished Chrome ceiling cup. The integrated LED guides light along fluid curves, producing subtle variations that brighten in some areas and soften in others. Unlike the starkness of neon, Ghost glows with an intimate warmth, drawing people closer into its embrace of light.

Compatible with DALI lighting control systems, the lamp can be seamlessly integrated into existing setups, offering adjustable, modern illumination with effortless elegance.

The compact luminaire floats lightly in space, making it ideal for bedrooms, hallways, or smaller living areas. Ghost is more than a lamp--it is a sculptural presence, a living sketch of light that elevates any interior with calm, contemporary sophistication.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

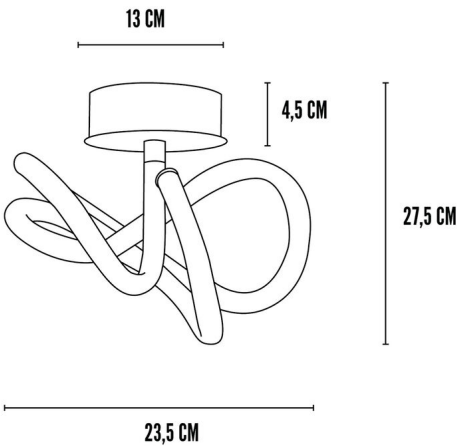

Ghost Ceiling Lamp - Chrome

Ghost Ceiling Lamp - Chrome

Product

Materials	Chrome (Cr III) Plated Aluminium	Light Source	SMD LED
Item Height in cm	27.5	Lighting Certification	CE-Certificate
Item width in cm	23.5	Cable Length	None
Item length in cm	23.5	Max Watt (W)	8
Net weight in kg	1.2	Socket	Built-in LED (non-replaceable)
Ceilling Cup Size	H4.5 / W13 Cm	IP Rating	20

Led

Color Temperature	2700	Lumen (lm)	1269
Energy Class	G	Illuminant Lifetime (h)	25000
EPREL No.	2573878	Driver Type	Built-in (isolated) DALI-compatible driver

Ghost Ceiling Lamp - Chrome

Family Description Text

A study in light and form, the Ghost Lighting series transforms illumination into sculpture. Inspired by minimalist art, each piece traces luminous lines through space like a hand-drawn sketch made three-dimensional, shifting with every perspective and unfolding into new patterns as you move around it.

At the core of every Ghost design, a radiant acrylic tube with an integrated LED guides light along fluid curves. Subtle variations emerge, brightening in some places and softening in others, creating an atmosphere that is both modern and warmly inviting. Unlike the starkness of neon, Ghost glows with an intimate warmth, drawing people closer into its embrace of light.

The series offers two distinct expressions. One, crafted entirely from luminous acrylic, feels pure and ethereal. The other pairs acrylic with aluminium, balancing radiance with structure, where glow meets gravity in a refined dialogue of material and light. Each celebrates the poetry of shadow, reflection, and luminosity while carrying its own character.

Whether mounted, suspended, or arrayed as a composition, Ghost pieces appear weightless, their sculptural presence floating effortlessly like light itself suspended in air.

Ghost is more than lighting. It is a living sketch of illumination, an artwork that inspires wonder, contemplation, and connection.

Color Description

Chrome is a sleek, mirror-like silver with liquid clarity, polished to brilliance. It reflects its surroundings with sharp precision, evoking the clarity of liquid metal. Luminous and sophisticated, this finish embodies modernist purity and serves as both a striking highlight and a refined counterbalance to textured tones.

Ghost Ceiling Lamp - Chrome

Maintenance Guide Description

Our lights finished in Chrome (Cr III) with acrylic tubes are designed to combine mirrored brilliance with a soft, luminous presence. To preserve their clarity and radiance, regular and gentle care is essential.

The Chrome (Cr III) surface should be wiped with a soft, dry microfiber cloth to remove dust and fingerprints. For deeper cleaning, use a slightly damp cloth with mild, pH-neutral soap, then dry immediately with a clean, lint-free cloth. Avoid abrasive pads, ammonia-based cleaners, acidic solutions, or strong detergents, as these can scratch the chrome or dull its mirrored finish.

The acrylic tubes require equally delicate care. Dust regularly with a soft microfiber cloth, and when necessary, clean with warm water and a small amount of mild soap. Always dry with a lint-free cloth to maintain their luminous clarity. Do not use alcohol, solvents, or abrasive cleaners, as they may cause surface damage or clouding.

Before any cleaning, always switch off and unplug the light. Avoid exposing both finishes to high humidity or direct water contact. With simple, consistent care, the Chrome (Cr III) will retain its liquid-metal brilliance, while the acrylic tubes will continue to glow with soft, inviting light ensuring the lamp remains refined and timeless for years to come.

Materials Description

The chrome finish combines technical precision with modernist clarity. Using Decorative Trivalent Chrome Plating (Cr III) on aluminium, the surface is polished to a mirrored brilliance that reflects its surroundings with sharp precision. Sleek and striking, it serves as a counterbalance to textured finishes, capturing light and form like liquid metal while embodying the clean lines of contemporary design.
