Tommy Hyldahl

Cube Candle Holders - High Glaze Birch

Product Description

Cube Candle Holders in High Glaze Birch are a quiet dialogue between geometry and emotion, inspired by the spirit of early Cubism, where simple forms reveal complex truths. Each holder distills the essence of structure into something deeply human and serene. The cube, equal on all sides and balanced in every dimension, serves as a meditation on harmony, proportion, and the stillness found in perfect balance.

Hand-painted in a bright, pale natural beige with a whisper of warmth, the Birch finish reflects the gentle tone of fresh wood. Subtle variations in brush strokes and the high-gloss glaze create luminous depth and refined clarity, ensuring each piece is uniquely alive. Crafted from durable ceramic, the candle holders combine practicality with sculptural artistry, standing equally well as functional objects or decorative accents.

Place the Cube Candle Holders in High Glaze Birch on a dining table, console, or mantel, individually or grouped to create rhythmic patterns of light and shadow. Their soft, radiant presence complements both modern and classic interiors, enhancing the sculptural presence of surrounding décor.

Warning: Fire & Breakage Hazard. Never allow candles to burn closer than 3 cm (1.2 inches) from the surface. Improper use may cause heat damage, cracking, or breakage, creating fire or injury risk. Damage from misuse is not covered under warranty.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Cube Candle Holders - High Glaze Birch

Family Description Text

The Cube Collection is a quiet dialogue between geometry and emotion. Inspired by the spirit of early Cubism, where simple forms revealed complex truths, each piece distills the essence of structure into something deeply human and serene.

The cube, equal on all sides and balanced in every dimension, stands at the heart of the collection. More than a shape, it becomes a philosophy, a meditation on harmony, proportion, and the stillness found in perfect balance.

The candleholder is conceived as a small architectural sculpture, where light interacts with form to create a gentle tension between the rational and the poetic. It does not seek attention but presence, standing in quiet dialogue with its surroundings.

Color Description

Hand-painted in a bright, pale natural beige with a whisper of warmth, Birch reflects the gentle tone of fresh wood. Its light and airy presence brings softness and calm, while variations in brush strokes lend natural depth, ensuring each piece is uniquely alive.

Cube Candle Holders - High Glaze Birch

Maintenance Guide Description

Thank you for choosing the 101 Copenhagen Candleholder. This product is crafted from high-quality ceramic and designed to add elegance and atmosphere to your space. To ensure safe use and maintain its longevity, please read and follow the care and safety guidelines below.

Important Usage Instructions:

To ensure safe use and prevent damage, please follow these guidelines:

- o□ Only use candles that fit securely and upright in the holder without forcing them into place.
- o□ Never allow candles to burn closer than 3cm (1.2 inches) from the ceramic holder surface. Excessive heat from flames burning too close can cause the ceramic to crack or shatter due to thermal stress.
- o□ Always extinguish the candle before it reaches this minimum distance.
- o□ Never leave a burning candle unattended. Keep away from children, pets, drafts, and flammable materials.
- o□ Use a candle snuffer to extinguish the flame rather than blowing it out, which can cause hot wax to splatter.
- o□ Allow any wax to cool and harden before cleaning.
- o□ Gently remove wax using a dry, soft cloth or your fingers - do not use water, as this may damage the hand-painted finish. Avoid all liquids, abrasive tools, acidic cleaners, bleach, or harsh chemicals, as these can permanently damage the surface.
- o□ Store your candleholder in a cool, dry place out of direct sunlight to preserve its finish and structural integrity.

Warning: Fire & Breakage Hazard

Failure to follow the 3cm minimum burn distance may result in severe heat damage, including cracking, breakage, or complete failure of the candleholder. This creates a potential fire or injury risk and renders the product unusable. Damage caused by improper candle use is not covered under warranty.

Materials Description

Ceramic is one of the oldest and most enduring materials, celebrated for its strength, versatility, and timeless beauty. Shaped from natural clay and fired at high temperatures, it achieves a density and durability that make it ideal for both functional and decorative use. Its smooth surface provides the perfect canvas for craftsmanship.

Our ceramic is elevated through hand painting, where layers of pigment are carefully applied by skilled artisans. This process creates subtle variations in tone, texture, and detail, ensuring that no two pieces are ever alike. The result is a material that combines resilience with individuality practical enough for everyday use, yet refined enough to stand as an object of art.

Hand-painted ceramic embodies the harmony of nature, craft, and time: a surface that carries both the permanence of fired clay and the soulful presence of the human hand.
