Tommy Hyldahl

Clay Coffee Table, Tall - High Gloss Almond

Product Description

The Clay Table is a sculptural coffee table collection inspired by the tactile process of shaping clay by hand. Originally developed in ceramic, the design emerged through a dialogue between material and maker, where each form was refined through touch rather than precise geometry.

Defined by soft contours and rounded edges, the collection carries the gentle irregularities and character of handcrafted work. The balanced composition creates a sense of calm, while the sculpted surfaces reveal the traces of a process guided by intuition and craftsmanship.

To enhance durability and versatility, the Clay Table is produced in resin. The material faithfully preserves the softness and tactile quality of the original clay models while providing the strength required for everyday use. The High Gloss Almond finish brings a warm, inviting brown tone with a gentle richness, settling between light brown and tan. Its polished surface adds a subtle sense of depth to the rounded form, balancing the natural warmth of the colour with a refined expression.

With its monolithic presence and understated expression, the Clay Coffee Table, Tall functions as both a practical surface and a sculptural object. Its taller, more compact silhouette works naturally beside sofas, lounge chairs, or as a standalone accent table, providing a considered surface for books, objects, and everyday essentials. Rooted in craftsmanship and shaped by the natural qualities of clay, it brings warmth, balance, and quiet character to contemporary interiors.

Designer Description

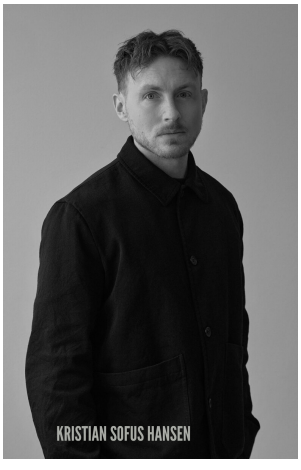

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Family Description Text

The Clay Table is a sculptural side table collection inspired by the tactile process of shaping clay by hand. Originally developed in ceramic, the design emerged through a dialogue between material and maker, where each form was refined through touch rather than precise geometry.

Defined by soft contours and rounded edges, the collection carries the gentle irregularities and character of handcrafted work. The balanced composition creates a sense of calm, while the sculpted surfaces reveal the traces of a process guided by intuition and craftsmanship.

To enhance durability and versatility, the Clay Table is produced in resin. The material faithfully preserves the softness and tactile quality of the original clay models while providing the strength required for everyday use.

With its monolithic presence and understated expression, the Clay Table functions as both a practical surface and a sculptural object. Rooted in craftsmanship and shaped by the natural qualities of clay, it brings warmth, balance, and quiet character to contemporary interiors.

Color Description

A warm, inviting brown with the gentle richness of its namesake. Almond carries a natural softness, settling comfortably between light brown and tan. It recalls the smooth grain of natural wood and the muted sweetness of roasted nuts, grounded in the earthy tones of sun-baked soil. Balanced and understated, this shade brings a sense of comfort, natural warmth, and easy elegance to any setting.

Maintenance Guide Description

Materials Description

Resin is a strong and durable material with a smooth, refined surface. The material allows for seamless, sculptural shapes and soft, rounded forms. Depending on the finish, the surface can vary from matte to high gloss. Small variations in colour and surface may occur, making each piece unique.
