

## A-Tube Nano Swing, Design by Lodes

### Model A-Tube Nano Swing small

*A-Tube Nano* reinterprets the A-Tube collection with a lamp that expresses light in its purest form, tracing an elegant luminous line in space. As thin as a pin, it draws its intrinsic strength from the simplicity of a graphic element, the line, which gently defines the atmosphere with a design that is as simple and light as it is refined and functional.
