# Collect | Throw <sup>SC81</sup> Space Copenhagen 2022

## Product category

Throw

## Environment

Indoor

## Material

60% Organic Cotton, 40% Linen

## Production process

The throw is made from organic cotton and linen. It is composed of two layers of linen with a cotton filling in between. The production technique that is used creates the voluminous appearance and the finishing of the edges is made to be complimentary to the natural appearance of the linen.
