## ***CARE GUIDE — MIRROR***

### ***HOW TO CLEAN / POLISH***

#### ***MIRROR***

Make sure the mirror is clean for dust & dirt on all surfaces before you begin the cleaning. If the mirror is extremely stained use vinegar added water on a cotton pad to wipe of the dirt. Spray glass cleaner on the item. Use a dry microfibre cloth to spread the cleaner and wipe the item dry and shiny.

*( Avoid rubbing with an abrasive cloth, that it could damage the surface. Keep in mind that some cleaning products will leave streaks on glass, so make sure to use one designed specifically for glass )*

# ***STORYTELLING***

## *ARCUS MIRROR / BY AYTM DESIGN TEAM*

ARCUS draws associations to architectural arcades. The ARCUS mirror brings a sense of dimension to any interior setting. The ARCUS mirror looks remarkable hanging on the wall as well as standing effortlessly on the floor and has the right size and volume to do so. Place it traditionally with the curve on top – hang it upside down or sideways.
