CARE GUIDE — TEXTILES

HOW TO CLEAN / POLISH

BOUCLÉ / GRAIN FABRIC

In case of stains, immediately dab the area with a white cotton cloth to prevent the stain to penetrate the fibers. Then carefully dab the stain in a white cotton cloth with lukewarm water containing a neutral detergent. If the stain has not disappeared, a professional should clean the fabric. Never clean with chemicals.

(Note that colours may fade if the fabric is exposed to strong sunlight for a longer period of time)
(Avoid rubbing hardy on the stain or scraping the stain with an abrasive cloth that could damage the fabric)

CARE GUIDE — LEATHER

HOW TO CLEAN / POLISH

CORRECTED- & SEMI ANILINE LEATHER / CAMO LEATHER

Leather necessarily requires important care products and moisturizers to retain its attractiveness, its wonderful soft grip, and its naturalness for a long time. Leather cannot regenerate itself and relies on effective care from the outside. It can only absorb these if its pores have been cleaned and any dirt particles removed prior to application. Without regular care, leather quickly loses its attractive appearance, it gets dirty, dries out or its colour loses its intensity.

For corrected- and semi aniline leather we recommend the KERALUX® Leather Care Set P from LCK, which includes cleaner, care lotion a sponge and a cloth. We recommend using the KERALUX® Soft Cleaner and Care Lotion at least twice a year. N.B. Leather can also be sensitive. Therefore, pretest each product for compatibility on a hidden area!

Please avoid direct exposure to light. Sunlight and artificial light can fade the colour and dry out the leather. The sun protection in the Care Lotion reduces the effect of UV radiation but cannot shield the leather completely.

Never use chemical products or ordinary cleaning products on leather. For daily cleaning of leather, it is recommended vacuuming the furniture carefully using a soft cleaner brush nozzle or wiping the furniture carefully with a soft, clean, dry or wrung cloth. The most important rule for stains: Respond immediately! For beverage stains, absorb the liquid gently with a paper towel. Then clean with KERALUX® Cleaner. Avoid pressure and too intensive rubbing.

(Note that leather furniture should be away from heaters at least 30 cm. Heat dries out the leather)

(Colour intensive clothes (e. g. jeans), pillows, blankets, and such like can discolour leather)

(Pets, zippers, and sharp objects can damage the leather surface. Please try to avoid contacts with these)

STORYTELLING

STILLA POUF / BY AYTM DESIGN TEAM

The design of the STILLA shape has become an instant icon for AYTM. The shape of STILLA adds an instant drop of beautiful design to any room in your home. The STILLA pouf is flexible and also perfect as a coffee table for your living room.
