

PRODUCT SHEET

Bright Barocco

Lighting / Furniture / Accessories

TEXT The Barocco project explores the process of solidification and debates how we perceive solidity and liquidity. Not much different from an icicle, formed by weather conditions and gravity, the Barocco pendant is created by blowing air and a shift in temperature.

YEAR OF INTRODUCTION 2020

TYPE Pendant

DESCRIPTION The lamp body is produced from 3-4mm thick mouth blown glass, with a matte surface. The top is sealed with a brass cover. The cord is covered with a weaved textile.
