BRIGHT SPROUT FURNITURE / LIGHTING / ACCESSORIES

On the design The idea behind Bright Sprout was to create a simple pendant lamp that in a delicate way hid the socket. Storytelling is one of the key concepts in the design of Nordic Tales, and Bright Sprout invites you to create your own narrative when combining cord and wooden socket cover with the oversized lightbulb.

PROCESS	The socket cover is manufactured on a wood-turning lathe and comes in three different finishes; soaped, smoked, and oiled oak.
