Home Objects

FRAMA Home Objects is our evolving collection of inspired lifestyle objects for home, office and hospitality. Featuring designs from a variety of artists, makers, and architects, all our Home Goods emphasises on the importance of quality craftsmanship and the beauty of natural materials and simple geometries.

0405 Glassware

0405 Glassware Collection takes inspiration from traditional glassware while reinventing it with an organic approach. Inspired by Giorgio Morandi's still life representations, the new additions to FRAMA's 0405 Glassware have a weighty, solid, and sturdy appearance—almost architectural in form.

Designed to be used, rather than admired, the new items, including three bottles and three glasses, are a result of a thoughtful design where the material carries an ageless quality, superseding time and place. Molded with durable

hand-blown glass, each piece of the collection is an individual work of art, pure and seamlessly untouched. Flowy, rounded lines and sturdy edges define the gracious transparent shapes providing a comfortable hold and a highly tactical experience.

The designer

"We do not force materials into specific molds; we want them to exist as they naturally are."

– Nikolaj Lorentz Mentze.

Studio 0405 is an architecture and design practice based in Copenhagen. Founded in 2015 by Nikolaj Lorentz Mentze, the studio collaborates with a diverse group of creatives on projects ranging from product design to exhibitions and commercial environments. Nikolaj aims at using innovative materials and production methods while appreciating the local heritage as niche manufacturers or forgotten techniques.

The collaboration

The new additions to 0405 Glassware Collection are created as an extension to FRAMA's already existing and playful glassware. Studio 0405, as well as FRAMA, intend to create straightforward forms. Inspired by the purity and innocence of children's drawings, the glassware's design was born as a feeling and emotion that accompanied the development of these shapes during the entire design process.

The creative collaboration between both studios has made possible the development of several products such as the existing 0405 Glassware and the 0405 Symmetry Collection, including the 0405 Lounge Chair and the 0450 Sofa.
