

# Cover Armchair

“Cover is born from a desire to create a comfortable and contemporary armchair in wood. I aimed for a crisp and vivid expression in the plywood while looking for a solid and grounded look in the frame and base of the chair. Three years of play and hard work in the making has resulted in a light, yet strong armchair, playing and taking the molded veneer to its extreme.”

## Cleaning & Care

Clean with a moist cloth first and wipe off excess liquid with a dry cloth.

Upholstered versions:

Textile: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean, warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water. We highly recommend that you go to [kvadrat.dk](https://kvadrat.dk) for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather: Clean with lukewarm PH-neutral, soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterward.

Leather:

As a natural material, leather requires looking after. If you care for the leather correctly, it will become even more beautiful over time.

Refine Leather, Easy Leather, and Endure Leather: Clean leather with a dry cloth regularly. Treat the leather at least four times a year using only special leather treatment products. Visit [ca-mo.com](https://ca-mo.com) for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water; otherwise, the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products, such as saddle soap, leather cleaners, or household products.
