Pump table lamp

Designed by KUTARQ Studio

Pump is inspired by hot air balloons and the idea of a luminaire lifting off the ground. The light tubular steel structure symbolises the propellant of a rocket, accentuating the effect of levitation of the shade. With its soft opal glass, Pump table lamp is ideal for smaller spots and setups where a pleasant light is needed.

English text

Pump is inspired by hot air balloons and the idea of a luminaire lifting off the ground. Floating in the air. The light tubular steel structure symbolises the propellant of a rocket, accentuating the effect of levitation of the shade. With its soft opal glass, Pump table lamp is ideal for smaller spots and setups where a pleasant light is needed. Whether that be on the desk, in the shelving system or on the window ledge.

Designed by KUTARQ Studio

A multidisciplinary design studio based in Spain. The architect and designer behind the studio, Jordi López Aguiló, designs playful and useful objects, along with a desire to discover simple designs. With the constant challenge of revealing the soul behind his objects, he offers an aesthetic design with personality.

Danish text

Pump er inspireret af varmluftsballoner og ideen om at løfte lys fra jorden. Den slanke stålkonstruktion løfter let glasset og skaber en oval skygge, der flyder i luften. Med sit matterede opalglas giver Pump et blødt lys. Det gør lampen ideel på skrivebordet, reolen, vindueskarmen eller hvor der måtte være et behov for et behageligt lys.

Designet af KUTARQ Studio

KUTARQ Studio er et tværfagligt designstudie med base i Spanien. Arkitekten og designeren bag studiet, Jordi López Aguiló, designer belysning, accessories og møbler fra et unikt og pragmatisk perspektiv. I sin designproces lader han sig udfordre og arbejder konstant på at finde og udtrykke produktets identitet for at tilbyde forbrugeren et æstetisk design med personlighed.
