# REVOLVER STOOL

#### HIGHLIGHTS

- · Addition to the Revolver Bar Stool
- · Its functional presence makes it suitable for a wide range of public and residential environments
- · Seat rotates 360 degrees
- · Qualified for contract use

# REVOLVER STOOL DESIGN BY LEON RANSMEIER

Sharing the same bearing mechanism as the Revolver Stool, which enables the seat to rotate 360 degrees, Leon Ransmeier's Revolver Stool offers a versatile and functional design. The slim, slightly dished seat with curved edges is offset by straight, angled legs, creating an uncluttered silhouette that offers limitless applications. Made in powder coated steel with a choice of colours, this lower version is suitable for a wide range of public and residential environments.

Leon Ransmeier is an American industrial designer who founded the design practise Ransmeier Inc., in New York in 2010. A graduate of the Rhode Island School of Design, his work has been included in the permanent collection of the San Francisco Museum of Modern Art (SFMOMA) and the Corning Museum of Glass. Very much a hands-on designer, Ransmeier develops full size prototypes of all of his works and is a believer in the idea that "use follows form". For HAY, Ransmeier has designed the Revolver Stool.

Revolver Stool | Black powder coated steel

#### **MATERIALS**

REVOLVER STOOL
Powder coated steel with aluminium bearing

#### **COLOUR & FINISH**

Please note that the colours are indicative

Sky grey

### **DIMENSIONS**

REVOLVER STOOL
Diameter seat 34 cm
Diameter base 34 cm

## **SUSTAINABILITY**

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
