

# Eames Elephant (small)

Charles & Ray Eames, 1945

## Eames Elephant (small)

Charles and Ray Eames developed a toy elephant made of plywood in 1945; however, this piece never went into production. A scaled-down version, the Eames Elephant (small) made of robust plastic, can be used as a child's toy or as a decorative object, whose friendly face adds a charming note to any setting.

The Eames Elephant also comes in a larger version, in plastic or elegantly moulded plywood.

- **Material:** dyed-through polypropylene, matt finish.
