FIFTY-FIFTY LAMP
COLLECTION

PRODUCT FACT SHEET

# FIFTY-FIFTY COLLECTION
DESIGN BY SAM WELLER, 2018

Named Fifty-Fifty after the lamp's counterweight system that creates equilibrium between the two parts, it is clear to see how Sam Weller's references to physics and engineering influence the design. Based on the idea of stripping a multi-purpose task light to its fundamental elements, Fifty Fifty balances refined, pared-back aesthetics with optimal functionality.
Configurable aluminium components minimise the overall complexity of the design and manufacturing process, creating a feature of the joints and mechanisms that is consistent throughout the entire series. The single cantilever arm is easy to tilt and pivot, featuring a touch-sensitive dimmer switch for precisely positioning and controlling the light source. The collection comprises table, wall and floor lamps.

HIGHLIGHTS

· Part of a progressive and technologically advanced lighting collection.
· A family of multifunctional task lamps that can be used free standing, on a desk or placed on the floor.
· CE approved.
· Integrated LED light source ensuring a life span of at least 25,000 hours of use.
· Integrated touch step dimmer switch.
· Table and floor lamps suitable for both private and office environments.
· Also available as a wall lamp that can be mounted on the wall with steel brackets.
· Qualified for contract use.
· For indoor use only.
