

ASSEMBLY INSTRUCTIONS

Talia Grande Chandelier

Item # JN 5113EU

NOTICE:

This light fixture should be installed in accordance with all applicable, local installation codes, and by a person familiar with the construction and operation of it, as well as the hazards involved. Inspect item and contents carefully. If any damage or defect is found, do not install. Retain all packaging material until installation is complete and approved.

12. Remove outer housing of wire by making a neat cut all the way around, about 2.5 cm from the end. Once cut is made, remove and discard the piece of housing, exposing the electrical wires.

NOTE: Make sure not to cut too deep into housing or electrical wires could become damaged.

13. Separate wires, and strip insulation on each 6 mm.
14. Loosen collar ring (E) and let canopy (D) slip down chain (F) carefully.
15. Twist all fixture wires together. Slip through center hole of mounting plate (A).

NOTE: Untwist wires and separate to prepare for connection.

16. Open terminal block (N) to prepare for installation of electrical wires. Use diagram 1 to reference electrical installation steps below.
17. Connect fixture ground (green) and supply ground (usually green or yellow) to terminal block (N) and secure with the screws.

NOTE: It is imperative that the fixture is grounded.

18. Connect neutral wires (blue) to terminal block (N) and secure with the screws.

19. Connect hot wires (brown) to terminal block (N) and secure with the screws. Then close terminal block (N).

CAUTION: Do not reverse the hot and neutral connections.

17. Install canopy (D) to collar loop (B) and secure with collar ring (E).
18. Insert light bulbs into the sockets.
19. Install glass ball (R) to the bottom of fixture frame.
20. Install glass balls starting from bottom (layer 1) and working your way to the top (layer 8) as shown in figures L1-L18.
