### CLEANING THE GLASS:

**BROKIS upholds only the highest possible quality standards. Prior to shipping, the light undergoes several quality controls and stages of cleaning. Because transportation, storage, and the amount of time that passes between packing at our plant and subsequent unpacking by the client can affect the light in different ways, we strongly recommend cleaning it prior to assembly.**

**The glass must first be rinsed in warm water, and a dish detergent may be used to remove all foreign particles, dust, and grease. Repeat the process if necessary and then dry the glass thoroughly with a paper towel.**

**Recommendation: Do not use mineral spirits, highly concentrated thinners, or other substances not intended for use on glass surfaces. Do not use any cleaning agents containing silicone, as they may leave a film and attract dust and smudges.**

**PRIOR TO SHIPPING, THE FUNCTIONALITY OF THE LIGHT AND ITS COMPONENTS ARE CHECKED THOROUGHLY. THE MANUFACTURER ASSUMES NO LIABILITY FOR THE MISHANDLING OF PRODUCTS.**

## 1. CHARGING THE LIGHT WITH THE USB-C CABLE

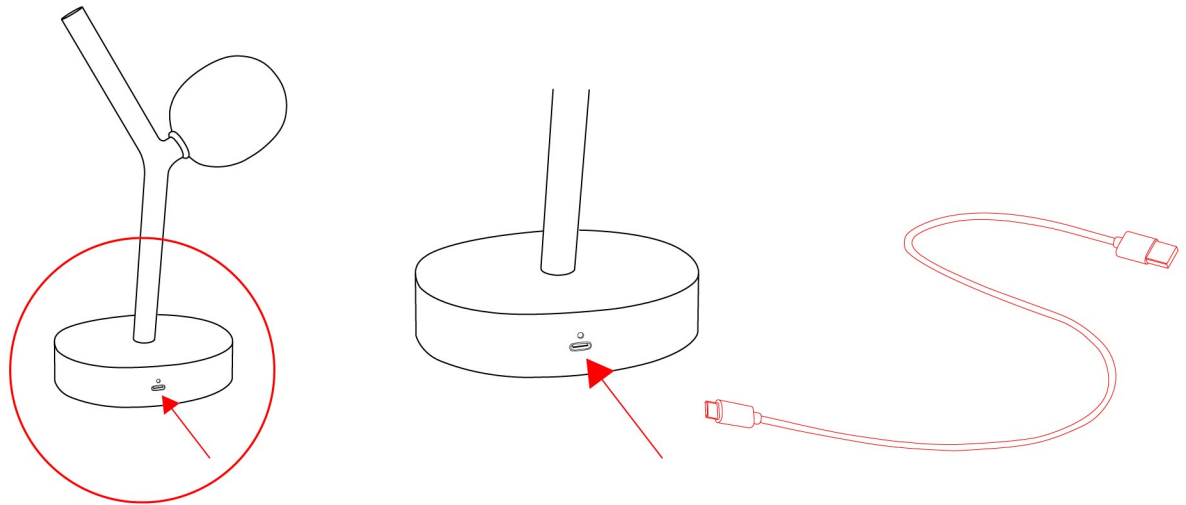

To charge the light, plug the USB-C cable into the base.

Charging is indicated by a red LED. Charging is complete when the LED changes to green.

Time to full charge: 4 hours.

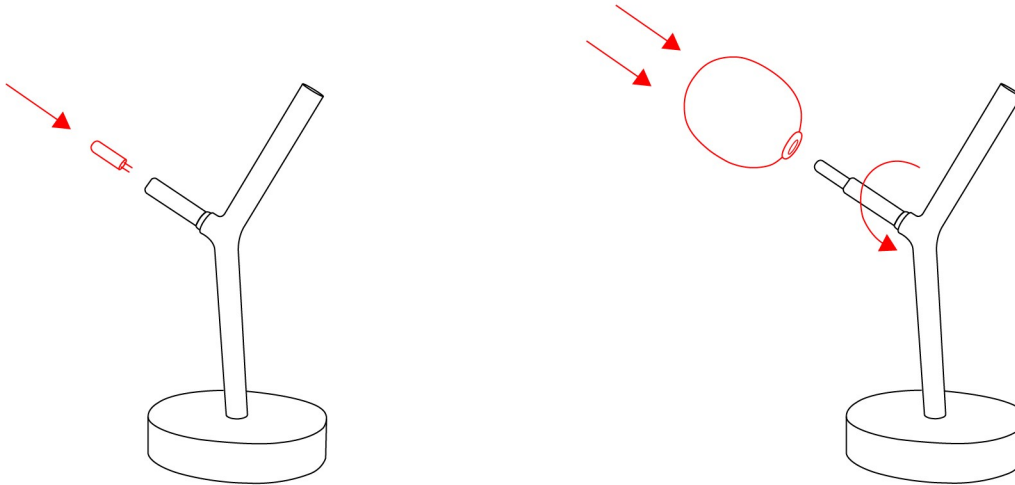

Battery life from full charge: 6 hours.

Recommended charging adapter: 5V / 2A max.

## 2. ASSEMBLING THE LIGHT

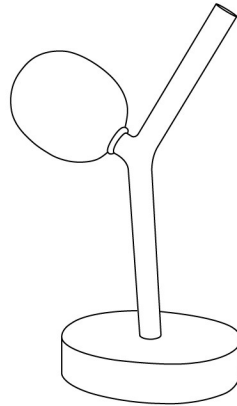

Wear the cotton gloves supplied with the light when removing it from the packaging. Install the LED light source and screw the glass shade onto the fixture.

### 3. SWITCHING ON THE LIGHT

Switch on the light and verify that it works properly.

Touching any metal part of the light switches it on and also adjusts the brightness to one of three levels.

#### 4. CHARGING THE LIGHT VIA WIRELESS INDUCTION

Place the light on the wireless charger.

Charging is indicated by a red LED. Charging is complete when the LED changes to green.

WIRELESS CHARGER NOT INLCUDED WITH LIGHT
