## Technical information:

|                                    |                               |
|------------------------------------|-------------------------------|
| Installation:                      | Ground                        |
| Material:                          | Stainless steel AISI316L      |
| Finish:                            | Corten                        |
| Diffuser type:                     | Transparent glass             |
| Optics:                            | 20°                           |
| Lamp type:                         | LED                           |
| Energy performance class:          | G                             |
| Colour temperature:                | 2200K                         |
| CRI:                               | >90                           |
| LB Factor:                         | L80B20 - 100.000h             |
| Step MacAdam:                      | 3                             |
| Photobiological risk:              | RG1                           |
| Power consumption (Watt):          | 2                             |
| Lumen:                             | 150                           |
| Real Lumen:                        | 147                           |
| Power supply:                      | ⊗ not included                |
| LED:                               | 24V                           |
| Insulation class:                  | ⬢ CL.III                      |
| Power cable:                       | 1.50 m H05RN-F 2x0.75         |
| Type of protection:                | <b>IP 67</b>                  |
| Resistance to breakage:            | <b>IK 07 2J xx5</b>           |
| Standards and Marks of Conformity: | CE UK ENEC                    |
| Additional features:               | Temp. max on diffuser<br>65°C |

Optic D not available for Honeycomb version.
