WALL LAMP 01, 02, 03 & 04

## MOUNTING INSTRUCTION MANUAL

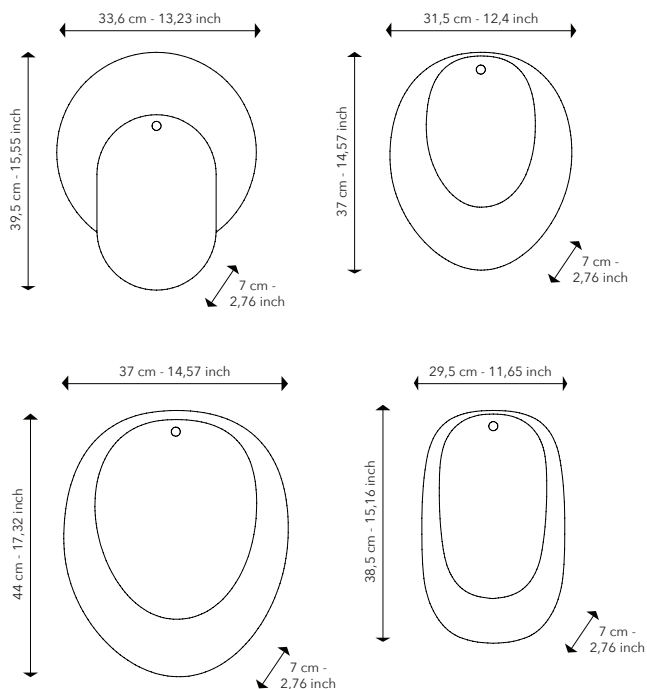

B0425003-400

B0425003-504

B0425004-008

B0425005-001

B0425006-300

**1.**

Drill 2 holes in the wall, distance 115 mm and  $\pm 120-140$  mm above the electricity connection point.

**2.**

Insert a plug in both holes and next the screws.

**OPTION 1: HANG ON WALL WITH CABLE**

**3.**

Place the lamp over the screws so it hangs against the wall.

**4.**

To assemble the front disk insert the metal screw, add rubber washer, hang the disk, add another rubber washer and lock the ceramic knob with nut.

**5.**

Plug in and use the switch to light the lamp.

**OPTION 2: HANG ON WALL WITHOUT CABLE**

**3.**

Cut the cable.

**4.**

Uncover the cables so you can connect them to the wires from your wall.

Connect the wires as illustrated with the delivered wago clamps.

**5.**

Once connected, fit the wires into the space provided at the back of the lamp.

**7.**

To assemble the front disk insert the metal screw, add rubber washer, hang the disk, add another rubber washer and lock the ceramic knob with nut.

**6.**

Place the lamp over the screws so it hangs against the wall.

**8.**

MATERIAL	Stoneware	
DIMENSIONS	B0425003-400 / B0425003-504: L33,6 W7 H39,5 cm L13,23 W2,76 H15,55 inch  B0425004-008: L31,5 W7 H37 cm L12,4 W2,76 H14,57 inch  B0425005-001: L37 W7 H44 cm L14,57 W2,76 H17,32 inch  B0425006-300: L29,6 W7 H38,5 cm L11,65 W2,76 H15,16 inch	
SWITCH	Handswitch	
DIMMABLE	No	
CABLE LENGHT	3 m	
BULB TYPE	E14	
LIGHTBULB INLCUDED	Yes	
MAXIMUM VOLTAGE	240 Volt	
MAXIMUM WATTAGE	8 W	
CLASS	II	
ENVIRONMENT	IP20	

## SAFETY DIRECTIONS

Please study the instruction manual and below information carefully before installing or using this product and keep this user manual for further reference.

- The luminaires may only be installed by authorized and qualified technicians according the valid regulations for electrical installation.
- Maintenance of the luminaires is limited to their surfaces. During maintenance no moisture can come into contact with any areas of the terminal connections or voltage control parts.
- The electrical supply must be switched off at the outset, preferably by means of a switch in the distribution box, before any installation, maintenance or repair work is undertaken.
- Exterior light must not be installed during rain.
- Take account of the minimal separation distance from other objects and the room required around the fitting.
- If in any doubt, consult a professional, taking local installation requirements into account. Some countries stipulate that lighting may be installed only by registered installers.
- Clamping screws in electrical connections must be adequately tightened. This is particularly the case with 12V low voltage conductors.
- When replacing a halogen lamp, wait for it to cool, for a minimum of 5 minutes.
- Clean with a clean, dry cloth or brush, use no solvents or abrasives. Avoid dampness on all electrical components.
- Take account of all available technical information.
- Take note of the symbols when connecting wires:
 

N = Neutral  
 L = Live  
 = Earth
- If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.

## SYMBOLS & MEANINGS

For indoor use only, where direct contact with water is impossible.

Protection class 1: the fitting must be earthed.

Protection class 2: the fitting is double insulated and does not require earthing.

Protection class 3: the fitting is low voltage.

Observe the indicated minimum distance between the lamp and the illuminated materials/objects.

Only the self-screening halogen illuminants should be used with the luminaire.

Strip the wire to the indicated length.

Connect using the specified cable.

The fixture can be used in combination with a dimmer. Consult the sales outlet for the correct type of dimmer (important in the case of 12V fittings)

The maximum wattage indicated in each lighting unit, for example, must not be exceeded.

This luminaire cannot be disposed together with normal domestic waste, you have to bring it to a staging area for electrical waste.

This luminaire was designed to work only with the indicated voltage.

This shows that the products meets EU safety, health or environmental requirements.
