### About the Design

Nautico is an abstract interpretation of the vast creatures of the sea and like all living entities, every single lamp is unique. From the stained brass with its vivid colors, to the bubble inhibited glass.

### Designer

Jonas Hoejgaard (2023)

### Description

The lamp shade is produced from 2-3mm thick mouth blown glass, with a matte surface and finished with a solid brass disc. The lamp comes with a wire suspension system and a ceiling mount.

### SKU 112101

Nautico - Pendant - Brass

### Technical Information

Body:	(Ø) 230mm (H) 155mm
Cord:	PVC, Textile covered, 500cm + 500cm wire

### Recycling

We promote responsible handling of the product, including its end-of-life stage.

The luminaire is composed of precious materials and must be decommissioned and disassembled to recycle the resources for other merchandise.

This item has been engineered to enable complete disassembly and reuse of most of its components.

### Packaging

The item is enclosed in a plastic bag along with 100% biodegradable FSC labeled cardboard, both of which can be conveniently separated and processed through recycling channels.

### Country of Origin:

Glass Shade:	Poland
Brass Disc:	Denmark
