

Vekst

Elegant ambiance and striking branches

normann
COPENHAGEN

Magnificent lighting inspired by nature's chaotic symmetry

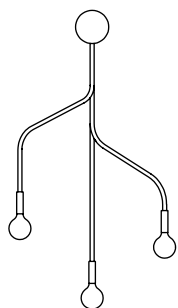

Vekst is a spectacular lamp collection characterized by its sculptural, branch-like arms. Nature's influence on the design language is evident. Just like branches of a tree, Vekst is distinguished by slender arms growing like branches into the shape of the crown of a tree. Crafted from powder-coated steel, each branch is fitted with a bulb, which is surrounded by a sphere of etched opal glass, a detail reminiscent of newly developing shoots appearing at the tip of the stem. The bud-like glass lampshades are illuminated by LED bulbs, creating an impressive play of light in the almost poetic design.
