

THE MIIRA COLLECTION

Miira 3

The cluster pendants consist of multiple pendants, each composed of a linear stem in anodized or powder-coated metal with a globe-shaped diffuser in opal white or optic clear hand-blown glass. The opal white diffuser provides a soft, all-round light whereas the optic clear provides a more decorative light. The pendants are suspended from a shared ceiling canopy with textile cords and are designed for ceiling mounting. Each pendant uses a single G9 light source positioned centrally within the diffuser.
