MAINTENANCE OF STONEWARE

CLEANING:

Stoneware is dishwasher safe. However, for best results and to preserve appearance of the matte glaze, hand washing is recommended.

Follow these steps for best results when cleaning:

1. Rinse off any remaining food after use.
2. Wash in warm soapy water. Do not scrub with harsh abrasives which may scratch or dull the surface.
3. Towel dry to avoid water marks.
4. Store your cookware in a cool, dry place.

MAINTENANCE NOTES:

Since stoneware is fired at a high temperature, it retains heat, making them excellent for serving straight from oven to table. Always use hot-pads, oven mitts or potholders when moving or removing your bakeware from the microwave or oven. OTTO Stoneware is oven safe up to 200° Celsius.

To prevent cracks, take care to never place it directly on a cold surface or fill it with anything cold while it is hot.

Move stoneware carefully so that it does not drop or bump into things and break, chip or crack. Use caution cleaning up sharp, broken stoneware pieces. Never use cracked stoneware.

Never soak earthenware submerged in water. The unglazed foot may absorb water and may cause cracking when heated.
