## KANDINSKY

The Kandinsky pendant lamp is inspired by the abstract circle paintings from the artist of the same name, created during his time at the Bauhaus school in the 1920s. A sphere and a spear play the main characters in the lamp's composition, piercing each other in mid-air. The delicate balance of the two elements evokes a dramatic sensation of weightlessness and precision but also fragility.

The custom-made light source is shaped and fitted seamlessly as part of the glass sphere. Emitting its glow from the middle of the hand-blown smoked glass, the lamp is dimmable to set mood in a space. Kandinsky is available in two sizes, with a 300 or 450mm wide glass sphere. It hangs powerfully on its own, above a table or feature design element, or as a group, to cast its soft, diffused light over a larger space.

## BROBERG & RIDDERSTRÅLE

Mats Broberg and Johan Ridderstråle are creative collaborators based in Stockholm, Sweden, working in a mixed architecture and design practice. They strive to add an emotional value to design, and often draw inspiration from everyday life. Their creative process combines a rational approach with a dash of wit, and a clash between past and present.

## PHOLC

Founded in 2015 by Maja and Samuel Norburg, Pholc is a distinctly Swedish lighting brand with a new take on Scandinavian design. The brand collaborates with talents from diverse fields with a commitment to creating meaningful and versatile designer lamps with strong personalities.

## ASSEMBLE

1. Make sure the electricity is turned off.
2. Release the ceiling cup
3. Adjust the length of the wire for your installation.
4. Adjust the length of the cable for your installation.
5. If there is a lot of cable left over so that it does not fit in the ceiling cup in a good way, you have the opportunity to cut the cable and reinstall it again. If you are unsure, contact your electrician.
6. Install the appropriate connector
7. Hang the luminaire on the hook
8. Fine-tune the length of the wire and cable. So that the wire takes the weight of the luminaire while the cable is straight and neat.
9. Plug in the power supply of AC 230V 50/60Hz; Mount the ceiling cup.

HOW TO CLEAN THE GLASS AND ASSEMBLE THE DUST COVER

10. Install the light source.  
The light source can easily be changed by the end user
11. If needed place the glass in the lap or against a soft surface e.g. the sofa. This is to be able to thoroughly clean the *inside* of the glass.
12. Put on the cotton gloves. Use a wet glass cleaning wipe or a glassware washing detergent\*. Clean the *inside* methodically.
13. Use a dry glass cloth. Wipe the *inside* methodically.

14. Make sure that the dust cover is on the luminaire stand before the glass.
15. Remove the gloves to get a better grip and put the glass back on the luminaire.
16. Use a dry glass cloth. Wipe the *outside* of the glass methodically. If the outside of the glass is very dirty start with a wet glass cleaning wipe or glassware washing detergent\*.
17. Then place the dust cover in the gap between the glass and the luminaire stand.

\* Do not use an abrasive cleaning agent
