

Mass Coffee Table High

Mass Coffee Table High is an extension to the Mass series and shares its signature boxy lines. The coffee table is perfect for those who wish for a taller and slightly slimmer table in the same simple design as the original Mass Coffee Table. Like the rest of this series a beautiful walnut veneer takes centre stage, providing a warm and steady base for the items you choose to place on it. Use the coffee table on its own or as a pair in larger lounge environments.
