The new collection of side-tables by Marie Michielssen for Serax reveals an idiosyncratic, eclectic ensemble of geometrical figures, materials and colours that unmistakably bear her signature. Cylinders and cuboids that are not only beautiful but are also very handy

because of their double function as both a side-table and a stool. Mix and match different tables or let a single item speak for itself; the side-tables of Marie Michielssen for Serax always 'sit' comfortably with you.

The new PAWN side tables are just the right height, meaning they can also be used as a stool. A perfect solution for when you have more visitors than you expected. The tops of Marie Michielssen's designs have been glazed.

A detail that contrasts nicely with the rough stone surface, but which also has a function. Your clothes won't snag on the rough surface if you decide to use this table as a stool.
