PASSE-PARTOUT

PASSE-PARTOUT — Vincent Van Duysen: “The name *Passe-Partout* actually says it all: this collection fits everywhere, in every setting.” With the porcelain tableware, countless visual effects can be created by stacking or by playing with the contrasting white and black exterior colours. The glasses are vaguely reminiscent of medieval chalices, and the carafes of different sizes serve all purposes. The cutlery and wooden accessories are also no-nonsense, a tad nostalgic, while at the same time very contemporary. The trays, bowls, breadboards, coasters, and the butter knife are made of carbonised ash wood, painted black and treated with a matt oil. Their modern finish gives them a timeless look. Thus, they can be used anytime, anywhere. In addition, the colour contrast with the *Passe-Partout* tableware ensures the perfect finishing touch.

Vincent Van Duysen is one of Belgium’s most acclaimed architects, interior designers, and product designers. His style builds on purism and a sophisticated use of materials. Timeless designs, reduced to their very essence. His *Passe-partout* collection does not clamour for attention, it stands out naturally for its simplicity and tranquillity.
