

SFERA

TABLE + FLOOR LIGHTS
BY VICTORIA WILMOTTE

The Sfera light stands out with its bold triangular steel frame, available in either a high-glossy finish or with a velvety glaze. Three hand-blown globes radiate a crisp, sculptural light, creating a stark and artistic ambiance—perfectly embodying the archaic and avant-garde world of Victoria Wilmotte.

PRODUCT CHARACTERISTICS

Each piece is created from glass and steel; powder coated or chrome plated. Bubbles, streaks and other variations in size and colour are part of the production process, and not defects of the design or production.

CARE INSTRUCTIONS

Regular cleaning and maintenance is important in order to keep your pulpo product looking its best and to prolong its life. Always remove any kind of dirt as soon as possible. We recommend that you first test a small, invisible area to ensure that no colour change or damage arises to the product. Do not use materials for maintenance that contain abrasive agents or are basic, acid or organic.

GLASS CLEANING

For dusting and light cleaning of glass use a soft, dry cloth. For further cleaning gently wipe the surface with a soft cloth wrung in clean water and a non-abrasive commercial glass cleaner. Dry immediately afterwards with a soft, dry and clean cloth. Please note that bubbles, streaks and other variations in size and colour are part of the production process, and not defects of the design or production of handmade glass.

METAL CLEANING

For dusting and light cleaning of the base, use a soft and dry cloth. For further cleaning, gently wipe the surface with a soft cloth wrung in clean water and a neutral detergent or soap flakes of good quality. Dry immediately afterwards with a soft, dry and clean cloth. For the best maintenance of the product, care for it regularly, protect it against direct sunlight and heat, and try to keep it away from moisture, grease, and other dirt. Furthermore, protect the surfaces against sharp objects and other that might scratch.

IMPORTANT NOTICE

The lamp should only be connected or repaired under the supervision of a qualified electrician. Please observe all local regulations. For interior use only to avoid short-circuit. Before changing the light bulb, turn off and unplug the lamp, and allow the bulb to cool down. Defective parts may be replaced only with authorized parts. Damaged external wiring may be replaced only with special wiring or wiring available only from the manufacturer.

INSTALLATION OF THE LIGHT

- Position the base** in the desired location, ensuring it is stable and level.
- Carefully screw in all three lightbulbs** until they are securely in place.
- Gently bend one of the three metal fixtures inward** just enough to fit part of one of the white glass shades. **Gradually adjust the other two fixtures one by one** and rotate the shade until it is fully secured. **Repeat this process** for the remaining two glass shades.
- Use the handswitch/footswitch** to turn the lamp on.
