LODES

Tidal, Design by Needs Studio

Model Tidal 60

Tidal is an elegant collection of lamps with exceptional luminous efficiency. Its fluid, impactful design, inspired by the movements of celestial bodies and tides, creates a dynamic visual experience — appearing differently from various viewing angles thanks to the ring's irregular, asymmetrical shape, with one side wider than the other. Tidal emits light both downward and upward, with all technical elements concealed within the compact, slim lamp body, highlighting its aesthetic appeal.
