UMAGE

AROUND THE WORLD

Designed by Luigi Vittorio Cittadini

The Around The World lampshade is made from mouth-blown opal glass with a shape resembling a hot air balloon – inspired by the universe of the famous author Jules Verne. Its milky white colour, enchanting shape and mild expression make it the perfect addition to any interior setting.

Around The World can be used as a pendant, table or a floor lamp, emphasising the meaning behind its shape. Pair it with your desired lighting accessories and display your Around The World in the window of your bedroom, next to your sofa, on top of your favourite cabinet in the living room, in a narrow hallway or above the dining table. A metal top on the lampshade gives Around The World the perfect finish, and is available in black, white, brushed brass and brushed steel - making it possible for you to choose the one that fits your home.

Metal top is included. Please note that with all handmade products, minor imperfections can appear. The beautiful irregularities make each piece unique and are a natural consequence of handmade designs.
