Cleaning:

It is recommended to give the upholstery a frequent vacuuming or light brushing. It is very important to rub very gently to avoid colour change. This proper cleaning will prevent buildup of dust, soil and oils which can be damaging to cover material. In the event of a spillage, it is imperative to act quickly. Carefully soak up any excess liquid, ideally using the edge of a white paper towel, then dab gently with a fresh towel taking care to avoid soaking in or spreading of the remaining liquid. Do not machine wash, contact a professional in case of stain removal.
