Coffee table

The remote. A charger. Keys. Playing cards. A few things you meant to put away later.

Then the doorbell rings.

Cleaning:
Dust with a clean, damp, lint free cloth. Frequent dusting will remove abrasive build up, which can damage the finish over time. Avoid exposing your furniture to any liquids. All liquids should be wiped up immediately with a soft slightly damp cloth. If sticky liquid residues do occur, they may be removed with a diluted solution of warm soapy water followed by a clean, damp sponge. The area should then be wiped immediately in the direction of the wood grain with a clean, soft white cloth until completely dry. Do not use a very wet cloth or allow any liquid to contact with the wood for a long period of time as this can permanently damage the surface. Wipe up spills immediately. Do not use any abrasive cleaner or harsh detergent as this can damage the surface of the furniture.
